

Ashante SXV8: Canonical 2D Flat Wireframe & UI Interactivity Specification

Document Version: 1.0.0 (Pattern Lock Frozen)

Target Delivery: Production UI Sign-Off

Target Environments: Desktop Research Workbench (1440x900) & Mobile Field Cockpit PWA (390x844)

1. Executive Architectural System Invariants

This canonical specification operationalizes the **Ashante SXV8 Pattern Lock v1.0** for Figma implementation. Any UI generated must adhere to these five non-negotiable architectural invariants:

1. Asymmetric Cognitive Boundary:

- **Desktop Research Workbench:** High-entropy discovery environment displaying up to 2,300 candidate properties with multi-variable filters (brick likelihood, zoning, bid ceiling, roof risk).
- **Mobile Field Cockpit:** Low-entropy execution environment strictly capped at a maximum of 30 promoted envelopes. Mobile has **no global search bar** and **no access to the unvetted 2,300 database**.

2. Full PropertyEnvelope Promotion (Not a Bookmark):

- Clicking the **HeartButton** does not simply save a reference ID; it initiates the promotion of a complete 7-facet data envelope (**Identity, Strategy, Market, Repairs, Risk, Evidence, Freshness**).

3. Deterministic Promotion Gate (Boundary Validator):

- No property can appear on the mobile device without clearing four mandatory pre-flight checks:
 - **Title Flag Clear** (human title search verified)
 - **Roof Risk Low/Med** (no uninspected high-risk roofs)
 - **Freshness TTL < 72h** (scrape data not stale)
 - **Bid Cap Set** (target and hard ceiling configured)

4. Strict Manual Bidding (Anti-Bot Invariant):

- The system strictly forbids automated or algorithmic bidding. All bid entries in Auction Mode require explicit numeric input with immediate real-time headroom feedback against the hard ceiling.

5. Calm Grayscale Aesthetic with Tri-Modal Review Badges:

- Flat 2D wireframe language (no gradient clutter, no colorful marketing illustrations).
 - Status indicators must obey the **Icon + Text + Color** rule: color alone, icon alone, or text alone is strictly prohibited.
-

2. Global Figma Design System Tokens

2.1 Canvas & Grid Definitions

Canvas Type	Viewport Size	Layout Grid / Columns	Margins	Gutter	Primary Purpose
Desktop Master	1440 x 900	12-Column Grid	80px	24px	High-volume triage, comparison, promotion staging
Mobile Master	390 x 844 (iPhone 15/16)	4-Column Grid	20px	16px	On-site auction inspection & live bid tracking

2.2 Color Styles (Figma Variables)

// Neutral Base Palette (Flat 2D Wireframe)

neutral-000: #FFFFFF (Pure White / Card background)

neutral-050: #F9F8F5 (Warm Canvas Light)

neutral-100: #F5F4F0 (Default Day Background)

neutral-200: #E8E6DF (Secondary Container / Table Header)

neutral-300: #D9D5CF (Divider / Border Muted)

neutral-700: #6E6A64 (Secondary Label / Helper Text)

neutral-900: #111111 (Primary Text / Dark Wireframe Stroke)

// Night Mode Inversion Tokens

night-bg: #0A0A0A (Dark Base Background)

night-card: #151515 (Dark Surface Container)

night-border:#333333 (Dark Stroke Line)

night-text: #D6D6D6 (Primary Night Text)

// Tri-Modal Semantic Status Tokens

status-ready-bg: #ECFDF5 | status-ready-border: #16A34A | status-ready-text: #16A34A

status-watch-bg: #FEF3C7 | status-watch-border: #FACC15 | status-watch-text: #B45309

status-blocked-bg: #FEE2E2 | status-blocked-border: #EF4444 | status-blocked-text: #EF4444

status-brand: #1B4D3E (Deep Forest Green Accent)

2.3 Typography Styles

Style Name	Font Family	Weight	Size / Line Height	Tracking	Usage
Serif/Display-XL	Instrument Serif / Fraunces	Regular / SemiBold	44px / 48px	-0.02em	Giant Hard Cap in Auction Mode
Serif/Heading-L	Instrument Serif / Fraunces	Regular	32px / 36px	-0.02em	Primary Section Titles
Serif/Heading-M	Instrument Serif / Fraunces	Regular	20px / 24px	-0.01em	Property Card Titles & Modal Headers
Sans/Body-Regular	Inter / System Sans	Regular (400)	13px / 18px	0em	Dossier Body Copy & Descriptions

Style Name	Font Family	Weight	Size / Line Height	Tracking	Usage
Sans/Body-Medium	Inter / System Sans	Medium (500)	13px / 18px	0em	Form Inputs & Button Labels
Sans/Label-Bold	Inter / System Sans	Bold (700)	11px / 14px	0.14em	Category Chips & Status Badges (Caps)
Mono/Telemetry	Fragment Mono / UI Mono	Regular (400)	10px / 14px	-0.01em	Timestamps, TTLs, Parcel IDs, Currency

3. Master Component Specifications (Auto Layout & Variants)

Component 1: HeartButton

- **Role:** Primary trigger promoting candidate from 2,300 bulk pool to the Promotion Gate.
- **Auto Layout:** Fixed 44px x 44px (Touch target compliant) or Hug [Icon + Label] (height: 44px, padding: 0 16px, gap: 8px).
- **Variants & States:**
 1. **State=Unhearted, Mode=Default:** 1px stroke #111111, fill #FFFFFF, heart icon stroke #111111, label "Heart".
 2. **State=Hearted, Mode=Active:** 1px stroke #1B4D3E, fill #1B4D3E, heart icon fill #FFFFFF, label "Hearted".
 3. **State=Disabled, Reason=Max30:** Opacity 40%, stroke dashed #D9D5CF, tooltip "Shortlist Full (30 Max)".

Component 2: BidCapSlot

- **Role:** Persistent financial guardrail displaying Target Bid vs. Non-Negotiable Hard Cap.
- **Auto Layout:** Horizontal Hug, padding: 10px 14px, gap: 12px, border-radius: 12px.
- **Variants:**
 1. **Variant=Desktop-Editable:** Two side-by-side editable input boxes with small stepper controls.

2. **Variant=Mobile-Persistent:** High-contrast dark pill (`fill: #111111, text: #FFFFFF`), dividing vertical border, displaying Target \$42,000 and Hard Cap \$50,000.
3. **Variant=Auction-Giant:** Centered stack, giant 44px serif Hard Cap \$50,000, subtitle "Do Not Exceed".

Component 3: ReviewGateBadge (Tri-Modal Strict Compliance)

- **Rule:** Every badge MUST contain Icon + Text + Border/Color. Color alone is illegal.
- **Auto Layout:** Hug contents, `height: 24px, padding: 4px 10px, gap: 6px, border-radius: 9999px`.
- **Variants:**
 1. **Status=Ready:** Fill #ECFDF5, Border #16A34A, Icon Checkmark [✓], Text "Ready".
 2. **Status=Conditional:** Fill #FEF3C7, Border #FACC15, Icon Half-Moon [◐], Text "Conditional".
 3. **Status=Blocked:** Fill #FEE2E2, Border #EF4444, Icon Cross [✕], Text "Blocked: [Reason]".

Component 4: WatchoutsBox (Always Visible Risk)

- **Role:** Guarantees critical structural or title flags cannot be hidden or collapsed.
- **Auto Layout:** Fill container width, `padding: 12px, gap: 8px, border-radius: 14px`.
- **Styling:** Fill #FFFBE5, Border 1px #FDE68A, Icon TriangleAlert in #B45309.
- **Variants:**
 1. **Variant=Desktop-Compact:** Single-line summary with hover drawer trigger.
 2. **Variant=Mobile-Full:** Multi-line bullets (e.g., "Roof 18yr flat — REVERIFY at site; Quit-claim deed gap 2021").
 3. **Variant=Auction-Banner:** Red-bordered emergency banner if data is stale (>48h).

Component 5: CandidateCard (Desktop Triage Card)

- **Auto Layout:** Vertical, `width: 360px, border: 1px solid #E5E5E5, border-radius: 18px, overflow: hidden`.
- **Hierarchy:**
 - Media Slot: Aspect ratio 4:3, image placeholder #D6D6D6, tag badge top-left.
 - Header Row: Property Address (Serif 18px), City, Property Type chip.
 - Telemetry: Brick Likelihood progress bar / percentage (96%).
 - Why Surfaced: Single bullet line with green indicator dot.
 - Watchouts Box: Embedded WatchoutsBox compact.
 - Footer Action Row: Target / Hard Cap metrics on left, HeartButton on bottom right.

Component 6: **PropertyEnvelopeView** (5-Tab Progressive Disclosure)

- **Tabs:** Horizontal bar with 5 segment buttons: **[Overview]** **[Property]** **[Market]** **[Risks]** **[Evidence]**.
 - **Tab Indicators:** Active tab has 2px solid **#1B4D3E** bottom border and bold typography; inactive has 60% opacity.
 - **Content Panels:**
 - *Overview:* Quick facts, target, hard cap, strategy (Hold/Flip).
 - *Property:* Parcel dimensions, 2 meters verification, roof style, basement headroom.
 - *Market:* 3 recent MLS comps within 0.5mi, ARV calculation, rental yield.
 - *Risks:* Gated checklist (Title, Roof, BSEED zoning, Flood zone).
 - *Evidence:* Direct document citations (#28471 deed, 2021 roof permit, 12 photos).
-

4. Screen-by-Screen Canonical Figma Prompts

Copy and paste these exact, self-contained prompts into Figma AI or human UI design tickets.

Screen 1: Desktop Triage Cockpit (**/app/desktop**)

Design a high-density, calm enterprise 2D flat wireframe for a Desktop Real Estate Auction Research Workbench (1440x900px canvas).

Theme: Minimalist flat wireframe in warm gray/off-white (**#F5F4F0**) with dark borders (**#111111**) and green (**#1B4D3E**) accents.

Header (height 64px, sticky, border-bottom 1px solid **#111111**):

- Left: Circular badge 'SX', system title 'Ashante SXV8 • Wayne County Auction', status badge 'Locked Layout v1.0'.
- Center: Telemetry indicators '2,300 Candidates' | 'No Auto-Bidding' | 'Calm Triage'.
- Right: Shortlist counter pill '12 / 30 Shortlisted' with pulsing green dot, Day/Night toggle button.

Layout Structure (2-Column Split):

1. Left Sidebar Rail (width 260px, border-right 1px solid **#E5E5E5**, padding 24px):

- Section Title: 'RESEARCH LEVERS' (mono 10px uppercase).

- Filter 1: Brick Likelihood Slider (0-100%, set to >85%).
- Filter 2: Property Type Segmented Buttons ('All', 'Two-Family', 'Colonial', 'Bungalow').
- Filter 3: Bid Ceiling Slider (Max Hard Cap set to \$50,000).
- Filter 4: Roof Risk Toggles ('Low-Med Only').
- Info callout card at bottom: 'Heart promotes FULL PropertyEnvelope to field phone. Max 30.'

2. Main Canvas Area (width 1180px, padding 32px):

- Top Control Bar: Search address input, Sort dropdown ('Highest Brick Likelihood'), Active filter tags.
- Grid: 3-column auto-layout grid displaying 6 property cards (CandidateCard component).
- Card Details: 4:3 grayscale house image, address '1847 Cortland St, Detroit, MI', brick 96% badge, 1-line Why It Surfaced bullet, amber Watchouts Box ('Title: deed gap 2021'), Target \$42,000, Hard Cap \$50,000, and HeartButton on bottom-right.

Screen 2: Desktop Comparison Studio (</app/desktop/compare>)

Design a clean, side-by-side comparison matrix wireframe for Desktop (1440x900px canvas) comparing 3 shortlisted properties.

Theme: Flat 2D wireframe, crisp cell borders, monospace data points, no colored background clutter.

Header:

- Breadcrumb: 'Desktop Triage > Comparison Studio (3 Properties Selected)'.
- Action Row: 'Export Dossiers (HTML)', 'Clear Selection', 'Back to Triage'.

Table Layout (3 Columns side-by-side, column width 360px each, gap 16px):

- Header Row per Column:

- 4:3 photo thumbnail, bold address ('1847 Cortland', '2214 Pingree', '2031 Joy Rd'), ReviewGateBadge.

- Row 1 - Executive Financials: Target Bid, Hard Cap, Estimated Rehab Budget (Low/Base/High).
- Row 2 - Physical Structure: Brick Likelihood %, Stories, Units (2-family vs single), Roof Age/Style.
- Row 3 - Market Comps: 3 comps within 0.5mi, ARV average, price/sqft.
- Row 4 - Risk Watch-Outs: Amber WatchoutsBox showing specific flags (curling shingles, deed gap, R2 zoning status).
- Row 5 - Citations & Freshness: County record deed citation, BSEED permit status, scrape freshness TTL.
- Sticky Footer Row:
 - Three decision buttons per property: 'Keep' (filled black), 'Watch' (white outline), 'Remove' (subtle red text).

Screen 3: Desktop Promotion Gate Staging (</app/desktop/promote>)

Design a pre-flight validation staging screen for Desktop (1440x900px canvas) demonstrating the Boundary Validator between Desktop and Mobile.

Theme: Architectural blueprint style with an explicit compliance inspection table.

Header:

- Title: 'Boundary Gate Staging • Pre-Field Validator'.
- Subtitle: 'Only clean, fully-verified property envelopes can transition to the Mobile Field Cockpit.'
- Counter: '2 Envelopes Ready for Promotion | 1 Blocked'.

Staging Verification Table:

Columns: Property Address | Title Clearance | Roof Integrity | Freshness TTL | Bid Cap Set | Status Action

Row 1 (Passing):

- 1847 Cortland St | [✓] Title Clear | [✓] Roof Low Risk | [✓] Scraped 14h ago | [✓] Cap \$50k | Badge: 'Ready' (Green)

Row 2 (Passing):

- 881 E Ferry St | [✓] Title Clear | [✓] Roof 2021 Permit | [✓] Scraped 22h ago | [✓] Cap \$44k | Badge: 'Ready' (Green)

Row 3 (Blocked - Highlighted in light red border #EF4444):

- 2031 Joy Rd | [X] DEED GAP '21 | [✓] Roof OK | [X] STALE 96h | [✓] Cap \$48k | Badge: 'Blocked' (Red)

- Error Explainer: 'Stays on Desktop: Quit-claim deed requires county clerk verification + Scrape TTL expired.'

Bottom Action Drawer (Sticky):

- Left: 'Shortlist utilization: 14/30 mobile slots filled.'

- Right: Large primary button: 'Promote 2 Validated Envelopes to Mobile Field Cockpit →'.

Screen 4: Mobile Field Cockpit — Today Dossier (</app/field>)

Design an iPhone 15/16 Pro Mobile Field Cockpit wireframe (390x844px canvas) for an on-site real estate auction bidder.

Theme: High contrast, 44px minimum touch targets, zero marketing fluff, calm ergonomic styling.

Top Navigation Bar:

- Left: 'Today • Wayne Co.' with date and batch number.

- Center: Hardware Dynamic Island placeholder.

- Right: Large counter badge '14 / 30' (strictly capped).

- Sub-bar: Two toggle tabs: '[Field Mode (Active)]' and '[Live Bidding]'.

Main Content Scrollable Area:

1. Header Card:

- Full-width 4:3 property photo with gradient overlay.
- Address in bold white serif: '1847 Cortland St, Detroit, MI 48206'.
- Carousel indicator: '1 of 14' with left/right circular touch arrows (36x36px).

2. Financial Anchor (Persistent High-Contrast Card):

- Dark container (#111111) with white text:
- Left: 'Target' \$42,000 | Middle: Vertical line | Right: 'Hard Cap' \$50,000 (Bold 22px).

3. Why It Surfaced Box:

- Clean bullet list with green bullet points:
 - '100% brick, 1928 build — low envelope risk'
 - 'Two-unit: house-hack exit if flip stalls'

4. Watchouts Box (Persistent Amber #FFFBEB):

- Amber alert icon + 'Watch-outs (Always Visible)':
- 'Title: deed gap 2021 — quit-claim in chain. Roof flat — reverify on site.'

5. 5-Segment Tab Bar:

- Tabs: '[Overview] [Property] [Market] [Risks] [Evidence]' (horizontal scrollable).
- Content area displaying active tab data (lot size, 2 meters, ARV comps, citations).

Sticky Bottom Action Bar (height 74px, border-top 1px solid #E5E5E5):

- Button Left: 'Remove' (outline, 44px height).
- Button Right: 'Keep' (filled forest green #1B4D3E, white text, 44px height).

Screen 5: Mobile Field Cockpit — Live Auction Mode (</app/field/auction>)

Design an emergency-clarity Live Bidding Console for Mobile (390x844px canvas) used while actively standing in an auction hall.

Theme: Stark high-contrast, black and white with red alert states. Designed to prevent bidder frenzy.

Top Bar:

- Property Address: '1847 Cortland St'.
- Back to Dossier toggle button.
- Freshness warning banner: 'Data verified 14h ago — Verified clean'.

Central Focus Area (The Financial Circuit-Breaker):

1. Hard Cap Display (Giant):

- Black card background (#000000).
- Small label: 'NON-NEGOTIABLE HARD CAP'.
- Huge Serif Number: '\$50,000' (44px bold white).
- Subtext: 'Do not exceed under any circumstances.'

2. Live Bid Input & Real-Time Headroom Calculation:

- 2-Column interactive card:
 - Left Column: 'Current Bid Input' -> large numeric text field showing '\$38,500' (manual entry only, no auto-bid).
 - Right Column: 'Headroom vs Cap' -> displays '+\$11,500 Headroom' in bold green.
- Status Badge below input: 'IN RANGE — SAFE TO BID' (green background).

3. State Variant (Simulated Alarm State):

- Secondary component variant showing what happens if user types '\$51,000':
- Headroom changes to: '-\$1,000 OVER' in bright red.
- Giant pulsing red banner appears: '⚠ ABOVE HARD CAP — STOP BIDDING'.

Bottom Bar:

- Sticky quick buttons: '+\$500', '+\$1,000' (fast increment helpers for manual field), and 'Passed / Sold' log button.

5. End-to-End User Flow & State Machine

stateDiagram-v2

[*] --> DesktopTriage: Load 2,300 Properties (SQLite)

state DesktopTriage {

 [*] --> FilterBrowse: Apply Levers (Brick >85%, Zoning R2)

```

6. Figma Prototyping Wiring & Interactions Guide

Configure the following interaction links in Figma's **Prototype** mode:

Source Screen / Element	Trigger	Figma Action	Target Destination	Animation & Parameters
Screen 1: CandidateCard / HeartButton	On Click	Open Overlay	PromotionGate Toast	Smart Animate (Ease-out 200ms)
Screen 1: Top Bar / Shortlist Pill	On Click	Navigate To	Screen 3: Desktop Promotion Gate	Instant
Screen 1: Compare Checkbox	On Selection	Update Component State	Action Bar Float	Smart Animate (Ease-in-out 150ms)

Source Screen / Element	Trigger	Figma Action	Target Destination	Animation & Parameters
Screen 2: Footer / Keep Button	On Click	Set Variable	isPromoted = true	Smart Animate
Screen 3: Promote to Field Button	On Click	Navigate To	Screen 4: Mobile Field Today	Push (Left -> Right, 300ms)
Screen 4: Toggle Tab / Live Bidding	On Click	Navigate To	Screen 5: Mobile Auction Mode	Dissolve (150ms)
Screen 4: Carousel Next Arrow	On Click	Navigate To	Property Card 2 of 14	Slide In (Right -> Left, 250ms)
Screen 4: Tab Bar [Market]	On Click	Switch Variant	PropertyEnvelopeView [Market]	Instant
Screen 5: Numeric Input Field	On Click / Type	Change Variant To	State: Above Hard Cap Alert	Smart Animate (Quick Bounce 100ms)

7. Quality Assurance & Anti-Drift Handoff Checklist

Before handing off the Figma frames to engineering, verify each item on this checklist:

- ☐ **Viewport Fidelity:** Desktop frames are exactly 1440px wide; Mobile frames are exactly 390px wide.
- ☐ **Cardinality Cap Display:** All mobile screens visibly show the N / 30 counter in the header.
- ☐ **Tri-Modal Review Badges:** No status badge relies solely on color (must have icon and label).
- ☐ **Watchouts Box Invariant:** Watchouts Box is present on every single property card and dossier screen without exception.
- ☐ **Manual Input Enforcement:** Auction Mode contains an editable text field for current bids; no automated "Auto-Bid" or "Bot Snipe" buttons exist.

- ☐ **5-Tab Completeness:** The dossier component exposes all 5 tabs (Overview, Property, Market, Risks, Evidence).
- ☐ **Headroom Warning State:** A dedicated variant exists showing the red ABOVE HARD CAP – STOP warning when bids exceed ceilings.
